6	Description of Actions to Achieve Compliance
7	<p>Since February the vessel Legend of the Seas and the fuel department at RCL have been working on the Hawaii cruise May20 - May 24, which we have found very challenging from a ECA compliance perspective. In summary, Legend is bunkering compliant fuel in Hilo on May 20th which is the vessels first Port of Call into Hawaii and completely filling her MGO storage tanks. On the vessels way to Honolulu May 24th the vessel will run out of compliant fuel. We have requested bunkers in KAILUA KONA (tender port) , HAWAII, LAHAINA, MAUI, HAWAII (tender port), and KAUAI (NAWILIWILI), HAWAII (at berth). In Nawiliwili we tried to arrange for trucks as the ship is at berth but the supplier in the port is not licensed for fueling vessels with storage capacity exceeding 10,000 gallons. Having already maximized Hilo on May 20th, since there is no other bunker port to get more compliant fuel, as a result we will have to burn non compliant fuel once the compliant fuel runs out on our</p>
